

RNase - ExitusPlus™

Solution for the removal of RNase contamination

Cat. No. 01-897-1

Description

RNase - ExitusPlus™ is a cleansing solution that is highly active against RNase contamination. It has been demonstrated to inactivate more than 20 microgram of RNase A dried onto the bottom of a micro centrifuge tube. The solution is stable for approximately 18 months and heat resistant. The identification of unwanted residual traces of the solution is indicated by a color indicator which can be easily removed with sterile water and paper.

Features

- Ready to use
- Bio-degradable
- Supplied in spray bottle
- Very fast
- Highly activated cleansing solution (non-alkaline, non-corrosive, non-carcinogenic)
- Stable for 18 months

Eliminates RNase from

- Laboratory surfaces
- Laboratory apparatus
- Plastic and Glass vessels
- Tubes
- Pipettes
