

Sample Collection and Preservation Products

NEW

Features:

- Non-invasive, user-friendly sample collection
- Collect and stabilize saliva, urine, blood and more
- Preservation of RNA, DNA and proteins
- Compatible with most isolation methods
- Safe handling and shipping
- Stabilizes at ambient temperature
- Shipping accessories also available

Products Available

Kit	Description	Catalog #
Saliva DNA Collection, Preservation and Isolation Kit (50)	Sample collection, preservation and DNA isolation in one convenient kit.	35700
Saliva DNA Preservation Buffer (2X)	For long-term preservation of saliva samples at ambient room temperature. This buffer is ideal for saliva storage and shipping. Bulk quantities available.	21451 (50 mL) 21452 (100 mL) 21450 (500 mL)
Buccal DNA Collection and Preservation (25)	For rapid and simple collection, preservation and shipping of buccal swabs.	33900
Sample Collection Kit For Upper Respiratory Tract Infectious Agents (25)	Rapid and simple collection, preservation and safe shipping of nasal and throat swabs.	29100
Swab Collection and Preservation Kit for Urogenital/Rectal Samples (25)	For rapid and simple collection, preservation and shipping of vaginal, penile and anal swabs.	34600
Urine DNA Concentration, Preservation and Isolation Kit (50)	Concentrate and Preserve DNA, Bacteria, Yeast and Viruses from 30mL urine. Isolate both high molecular weight DNA (greater than 1 kb in size; mostly cell associated) and the smaller DNA (150 - 250 bp; derived from the circulation) from up to 30mL urine	38000
Urine RNA Concentration, Preservation and Isolation Kit (50)	Concentrate and Preserve RNA, Bacteria, Yeast and Viruses from 30mL urine. Isolate and purify all RNA species, mRNA and rRNA down to microRNA and siRNA from up to 30mL urine	38100
Urine Protein Concentration, Preservation and Isolation Kit (50)	Concentrate and Preserve Proteins, Bacteria, Yeast and Viruses from 30mL urine. Concentrate and Desalt up to 4 mg of proteins from up to 30mL urine	38200
Urine Collection and Preservation Tubes	Collect and preserve urine samples at room temperature for over 2 years. Simply add, mix, cap and ship. Available in 5 cc, 15 cc, 50 cc and microdose formats.	18116 (1 x 5 cc) 18118 (50 x 5 cc) 18120 (1 x 15 cc) 18122 (50 x 15 cc) 18111 (1 x 50 cc) 18112 (50 x 50 cc) 18124 (1 x microdose) 18126 (50 x microdose)
Blood DNA Preservation Buffer (3X)	For rapid and simple preservation of blood DNA at ambient temperatures	29111 (25 mL) 29112 (100 mL)
Shipping Accessories (50 Mailers)	A safe and convenient tool for shipping non-infectious biological specimens. Includes leak-proof biohazard bags with adsorbent pads for enhanced safety. Matches the standards of OSHA as well as IATA regulations.	38300
