

***TransIT*[®]-CHO Transfection Kit**

A high efficiency, low toxicity, DNA transfection reagent optimized for CHO cell types

- **Unique Formulation**—Each kit contains a base and booster reagent to maximize transfection performance in CHO cell types.
- **Low Cellular Toxicity**—Maintain cell density and reduce experimental biases.
- **High Efficiency Delivery**—Achieve 50-60% transfection efficiency in CHO-K1 cells to ensure experimental success.

Data

Figure 1. The *TransIT*-CHO Kit Achieves High Transfection Efficiency.

CHO-K1 cells were transfected with pEGFP using *TransIT*-CHO Kit in complete media for 24 hours.
